

Bio of Betty Rohan

I attended the University of Florida with a major in speech and English. I taught school and put my first husband through law school. We have 2 children, Darren, a cardiothoracic surgeon in New York and Wendi, who works in the entertainment industry in Los Angeles. We divorced after 14 years of marriage.

I owned and operated a Travel Agency, Travel Connections, until 2007 . . . that is how I got my email address - goawayplease. I met my second husband, and after 4 years of marriage, he died after a brief bout with lung cancer. That is where Civitan comes in.

I was in Jacksonville and the club helped me through a very tough time. When I moved to the Villages in 2014, I looked for a club, but sadly, there was not one. I decided to TRY and start a club. I was directed to a past International President, Kurt Thomas. He lived here and told me that it couldn't be done, there were already too many international service clubs like Rotary, Kiwanis, Sertoma, etc. I decided to try anyway and the rest is history.

Every day I am so proud of our little club and the difference it has made in the many lives we have touched. My life and the life of each of the club members is enhanced, and the lives of those in need have also been greatly helped. I am deeply indebted to EVERYONE!!!
